

PROJECT SUMMARY

Site: Demonstration Trench. Unit: 4. Operator: J. Smith. Grid: 24 inch. Depth range: 0-40 cm. This is a demonstration report and contains no real field data.

- Datum and four corner coordinates recorded.
- 25 image captures and 25 LiDAR scan records represented.
- Weather: partly cloudy, 72 F, 42 percent relative humidity.

CAPTURE LOG

Records are grouped by depth and include timestamp, operator note, image reference, and LiDAR reference.

- 0 cm baseline capture
- 10 cm capture
- 20 cm capture
- 30 cm capture
- 40 cm capture

INTERPRETIVE NOTE

No archaeological interpretation should be generated automatically from capture data. Reports preserve observations, geometry, imagery, and scan products for professional review.
